PROFESSIONAL PROFILE

Reliable and adaptable remote professional with experience in customer support, operations support, administrative assistance, data entry, and project-based data annotation. Values clear communication, accuracy, professionalism, and consistent follow-through. Comfortable using digital tools, following detailed procedures, managing competing priorities, and completing assignments independently while meeting deadlines.

CORE COMPETENCIES

- Customer service and customer support • Inbound call handling and customer inquiries
- Issue resolution and troubleshooting support • Active listening, empathy, and de-escalation
- Administrative and operations support • Data entry, data verification, and recordkeeping
- Document and file management • Online research and information organization
- 2D and 3D data annotation, labeling, and segmentation • Remote communication and collaboration
- Time management and task prioritization • Attention to detail and following procedures

PROFESSIONAL EXPERIENCE

Customer Support Representative – Voice | Concentrix | March 2022 – November 2022

Handled high-volume inbound customer calls in a fast-paced contact center environment.

Responded to customer inquiries, account concerns, troubleshooting issues, and service requests.

Used active listening and professional communication to understand concerns and provide appropriate assistance.

De-escalated challenging interactions with patience and empathy.

Documented customer interactions and relevant account information accurately.

Followed established procedures, quality standards, and customer service guidelines.

Operations Support Specialist | Scale | February 2023 – December 2025

Supported daily operational and administrative activities while maintaining accuracy and productivity.

Performed data entry, documentation, and information management according to established procedures.

Created, organized, updated, and maintained digital documents and records using Microsoft Office and Google Workspace.

Reviewed and processed information against detailed instructions and quality requirements.

Managed multiple assignments, changing priorities, and deadlines in a remote/project-based environment.

Administrative Assistant | DSWD FIFO X | January 2021 – December 2021

Assisted with administrative tasks, data collection, and preparation and organization of reports and documents.

Maintained accurate records and updated information for monitoring and reporting.

Assisted with field information gathering and coordination with beneficiaries or community members as assigned.

Checked documents for completeness and accuracy.

Data Encoder | DSWD FIFO X | January 2020 – December 2020

Entered and updated information in computer systems, databases, and spreadsheets.

Reviewed records for completeness, accuracy, and consistency.

Verified and corrected encoding errors and discrepancies according to established guidelines.

Organized digital files and maintained confidentiality of information.

Statistical Researcher | Philippine Statistics Authority | March 2022 – April 2022

Reviewed collected information for validity, reliability, and accuracy.

Evaluated source information and raw data to support interpretation.

Provided administrative and clerical support to office staff.

Independent Data Annotation Contractor (Project-Based) | Remotasks / Scale AI Projects | 2018 – Present

Completed project-based data annotation, labeling, and segmentation assignments.

Worked on 2D and 3D annotation and segmentation tasks according to project-specific guidelines.

Applied task instructions and quality criteria while adapting to changing project requirements.

DEMONSTRATION WORK SAMPLES

Important: These are illustrative samples created to demonstrate work approach and communication style. They are not presented as actual client work or company deliverables.

SAMPLE 1 – CUSTOMER EMAIL RESPONSE

Customer email response: Thank you for contacting us. I understand that you would like an update on your service request. I would be happy to assist. I will review the information available and check the current status of your request. If additional details are needed, I will contact you using the information provided. Thank you for your patience.

SAMPLE 2 – CUSTOMER SUPPORT CALL WORKFLOW

Customer support call workflow: Open the interaction professionally; verify identity according to company policy; listen and clarify the concern; review relevant account or service information; explain next steps and provide an authorized resolution; confirm whether further assistance is needed; document the inquiry and outcome accurately.

SAMPLE 3 – DATA ENTRY QUALITY CHECKLIST

Data entry quality checklist: Confirm source documents are complete and readable; enter information in the correct fields; check spelling, dates, numerical values, and required fields; compare entries against source documents; flag unclear information rather than guessing; save and organize records according to confidentiality procedures.
